

You have surely heard of Russian dolls. They are a series of wooden dolls placed in descending order (from biggest to smallest) representing women in the countryside. These dolls open up and fit inside each other. Many people have a set of colourful Russian dolls. Here's your chance to make your very own set of Russian dolls.

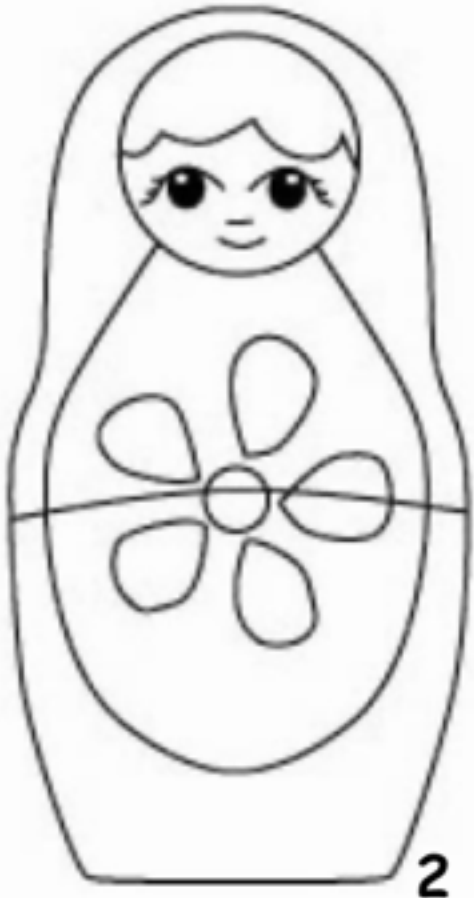

Step 1: Colour the six different images of dolls on the next page. They must be very detailed and well coloured. Next, cut them out.

Step 2: Make small cylinders for each doll by gluing the strips to form a cylinder. Be careful to glue the strips carefully so that the dolls will be able to fit into one another.

Step 3: Glue the dolls to the correct cylinders according to their size. The biggest doll goes with the biggest cylinder and the small doll with the small cylinder. They are all numbered to match their cylinders.
